

NCAC Current Topics as of 4 March 2003

-Stronger drug-free attitude

The Council is discussing ways to bring the anti-drug sentiments of the Drug Demand Reduction program closer to cadets. We are currently looking at a change to the cadet oath and an addition to the CAP phone numbers card already mailed to members.

-Standardized PT uniform

We are currently looking at a possible standardized PT uniform to present a unified image as well as reduce the cost burden on cadets attending more than one activity.

-New 52-16 Revisions

The Council is also discussing various possible changes to the new CAPR 52-16.

-Cadet of the Year Requirements

The Council is still working to improve the requirements for CAP Cadet of the Year. Included among the ideas is to add a phrase to the regulation clarifying that the award is given for lifetime achievement within the cadet program—not just during the year of the award.

-Cadet Achievement Revisions

The Council is working on ways to ensure only well-rounded cadets achieve upper milestone awards. Among the ideas to add as requirements:

- Attend a CAC meeting
- Complete the requirements for the Community Service award
- Attend a second encampment
- Earn the Recruiting ribbon.
